Toan Nguyen Van

Backend Developer

As a backend developer, I'm eager to join a company where I can gain expertise in various programming languages and frameworks, including Java, Spring, NodeJS, and ExpressJS. Additionally, I aim to refine my skills in database management, server-side scripting, and API integration. At the same time, I aspire to develop creative and innovative products that provide an immersive experience for clients.

EDUCATION

CAN THO UNIVERSITY

Major in Software Engineering (2020 - 2025)

Excellent
